Professional Summary

Associate consultant with 3.5 year of experience at Infosys Limited. I am proficient in SAP PI/PO and Integrated SAP and non-SAP systems, designing and implementing interfaces. I am a dedicated, motivated professional and always striving for excellence in my work.

Professional Experience

Associate Consultant (SAP PI/PO, CPI), *Infosys Limited*   2021 – Present
                                                                                  Hyderabad, India
- Developed and enhanced integration interfaces using SAP PI/PO and SAP CPI tools.
- Worked across all PO components including ESB, Integration Builder (IB), SLD, and Monitoring.
- Handled interface design, mapping enhancements, and resolution of integration issues.
- Integrated SAP and non-SAP systems using a wide range of adapters and data formats.
- Collaborated with cross-functional teams to ensure efficient and seamless data flow.

Technical Skills

Integration Platforms
SAP PI/PO 7./7.5, SAP CPI (Cloud Platform Integration)

Mapping & Transformations
XML, JSON, CSV

SAP NetWeaver

Windows OS

Palette Operation in CPI
Participants, Events, Connectors, Process, MessageTransformation, Routings, Content Enricher, Request-Reply.

Projects

Johnson Controls, *Support & Development (SAP PI/PO)*   05/2022 – present
- Developed pass-through interfaces for payment systems and enhanced existing interfaces.
- Applied mapping logic and transformations based on business requirements.
- Played a crucial role in ensuring reliable data integration between client systems.

Valeo, *Development*   03/2025 – 06/2025
- Developed a pass-through interface to pick up files from the AL11 path and place them into an AWS S3 bucket. In this scenario, an AWS S3 signature was generated using Java Mapping to connect to the AWS bucket.
